To Whom It May Concern:

I am extremely pleased to write this letter of recommendation for George Garrett from Slater Print Management. George and I have been closely working together as part of the Amgen Supplier Mentorship Program since early 2018.

I first had the opportunity to meet George during the Diversity Alliance for Science (DA4S) conference in Laguna Beach in February 2018. Based on my conversations with George and learning about his eagerness to expand Slater Print's business within the Pharma industry, I was excited to personally select him as my mentee for our 2018 Supplier Mentorship Program. In today's changing landscape, it is important for large corporations to advocate for and consider small businesses in their purchasing decisions. We often find that small businesses provide creative and innovative solutions while being nimble and competitive in price. As such, it is part of Amgen's strategic imperative to work with, promote, and develop small and diverse businesses.

During my interactions with George, I've been impressed with his integrity and loyalty to serve his clients. As a small business, this is one element that sets Slater Print apart from its larger competitors – "what you see is what you get". While Amgen has not yet had the opportunity to work with Slater Print, I feel confident that Slater Print would be able to meet our very strict demands and look forward to potentially doing business together in the future.

Please feel free to call me at 805-447-2617 if you would like me to further elaborate.

Regards,

Kristin Bentsen
